Pre Fab Brochure

About US

BABA QUARTZ is the prominent manufacturer of engineered Quartz Surfaces, Headquartered in Rajasthan province in India. We have independent distributors across all part of world to serve our customers. Our organization takes pride in its accomplished strength to deliver premium quality goods to a huge clientele.

Our product is made of genuine Quartz, which is one of the **nature 's hardest stone**. It is the most versatile and practical building material being used for beautiful kitchen countertops, table tops, bathroom vanities, elegant floorings and wall claddings. Our product is non-porous, stain & scratch resistant, flexible, hygienic, eco friendly and also comes with a low maintenance cost. The ultimate nature of the quartz surfaces is its uniformity in pattern, uniqueness in color and customized designs.

BABA QUARTZ strive to optimize our client's satisfaction level by providing our distinguished product range. We assure our quality & consistency as we are the only company in the world of engineered quartz slabs in history, who have their own quarries and in-house processing facility. Our advance production facilities and R&D team innovates a wide range of trendy designs.

Why to Choose Pre Fab. from Baba Quartz??

- ✓ 10 years warranty
- ✓ Non-porous
- ✓ Stain resistant
- ✓ Heat resistant
- ✓ Durable
- ✓ Scratch resistant
- ✓ Hygienic (Bacteria Free)
- ✓ Many color and style options
- ✓ Easy to Install
- ✓ Cost Effective
- ✓ High Acidic substances and harsh cleaners can't cause damage.

What is Prefabrication?

Pre-fabrication of quartz slabs refers to the process of manufacturing Quartz, Marble Or Granite countertops or surfaces in a controlled factory environment before they are installed in a customer's home or business or any commercial space.

This process involves several steps:

- Material Composition
- Slab Production
- Curing and Hardening
- Polishing
- Cutting and Shaping
- Edge Finishing
- Quality Control
- Installation

Pre-fabrication allows for more precise control over the quality and consistency of the slabs, reduces waste, and can significantly shorten the installation time compared to custom fabrication on-site.

SPECIFICATION

Quartz Slab Technical Specifications

PROPERTY	RESULTS	METHOD
Water Absorption	<0.05%	ASTM C97-09
MOH's Hardness	6.5 - 7	MOH's Hardness Scale
Thermal Shock	No Damage, Passed 5 Cycles	ASTM C484
Compressive Strength	24000 Psi	ASTM C170
Flexural Strength	8500 - 9000 Psi	ASTM C880
Moisture Absorption	Negligible	ASTM C97
Abrasion Resistance	89 - 190 mm ³	ASTM C1253
Density	2.4 g/cm ³	ASTM C373
Cigarette Test	Unaffected	ANSI Z124.6
Stain Resistance	Unaffected	ANSI Z124.6
Bond Strength	205 Psi	ASTM C482
Wear Resistance	Unaffected	ANSI Z124.6
Thermal Expansion	1.2 x 10 ⁻⁵ in/f	ASTM C531
Chemical Resistance	Unaffected	ASTM C650
De-Icing Resistance	Unaffected	ASTM C672
Freeze-Thaw Resistance	No Damage, Passed 15 cycles	ASTM C1026
Surface Burning Characteristics	17 (Class A/1 Rating)	ASTM E84
